

DJ SANDSTORM, THE FUNK SOUL BROTHER!

Specialized in funky soulful music and always inspired by the electronic 80's, funky 90's and eclectic 00's. DJ Sandstorm is known for his mashups, remixes, funky DJ sets and his eclectic Yearmixes.

He plays his DJ sets at many leading pop, jazz and dance festivals, notably North Sea Jazz, Lowlands, Concert At Sea, TT Festival, Extrema Outdoor and many more. Sandstorm is also a regular mix-DJ on Dutch radiostations like Radio Veronica, NPO 3FM, Radio 2 and Sublime FM, for more than 20 years.

DJ Sandstorm started DJ'ing in the early 90's, inspired by Dutch Grandmixer Ben Liebrand. It was the time of funky hiphop, r&b and the early years of house music. The funky beats and soulful sounds of oldschool hiphop, house and dance stayed with Sandstorm till the present day.

In the 90's he developed his taste for funky breakbeat, electro, jungle and drum & bass. He also started producing and releasing his own dancemusic in these styles.

In the 00's DJ Sandstorm became a household name on Dutch Radio 3FM, with weekly remixes and mashups of pop, rock and dance tracks. He also produced his eclectic 3FM Yearmixes for 16 years (2000 – 2016).

Nowadays, DJ Sandstorm still plays funky 80's, 90's and 00's music. But he also developed three unique eclectic mixing-styles: 'Jazz Mash', 'Dance Rocks' and 'Global Flavour'. Three styles that have their own funky musical identity but share the same soulful spirit.

DJ Sandstorm also produces and performs his own funky dancemusic live as 'Sandstorm Soundsystem' and he teaches his DJ and production skills to others.
